

MICKEY MOUSE
CLUBHOUSE

Tool Hunt

**Mickey Mouse Clubhouse Tool Hunt is
for 2 to 4 players.**

Each player selects a different playing piece/spinner...

...and places it on one of the 4 colored circles in the center of the board.

Each player is given a Toodles tool collecting board.

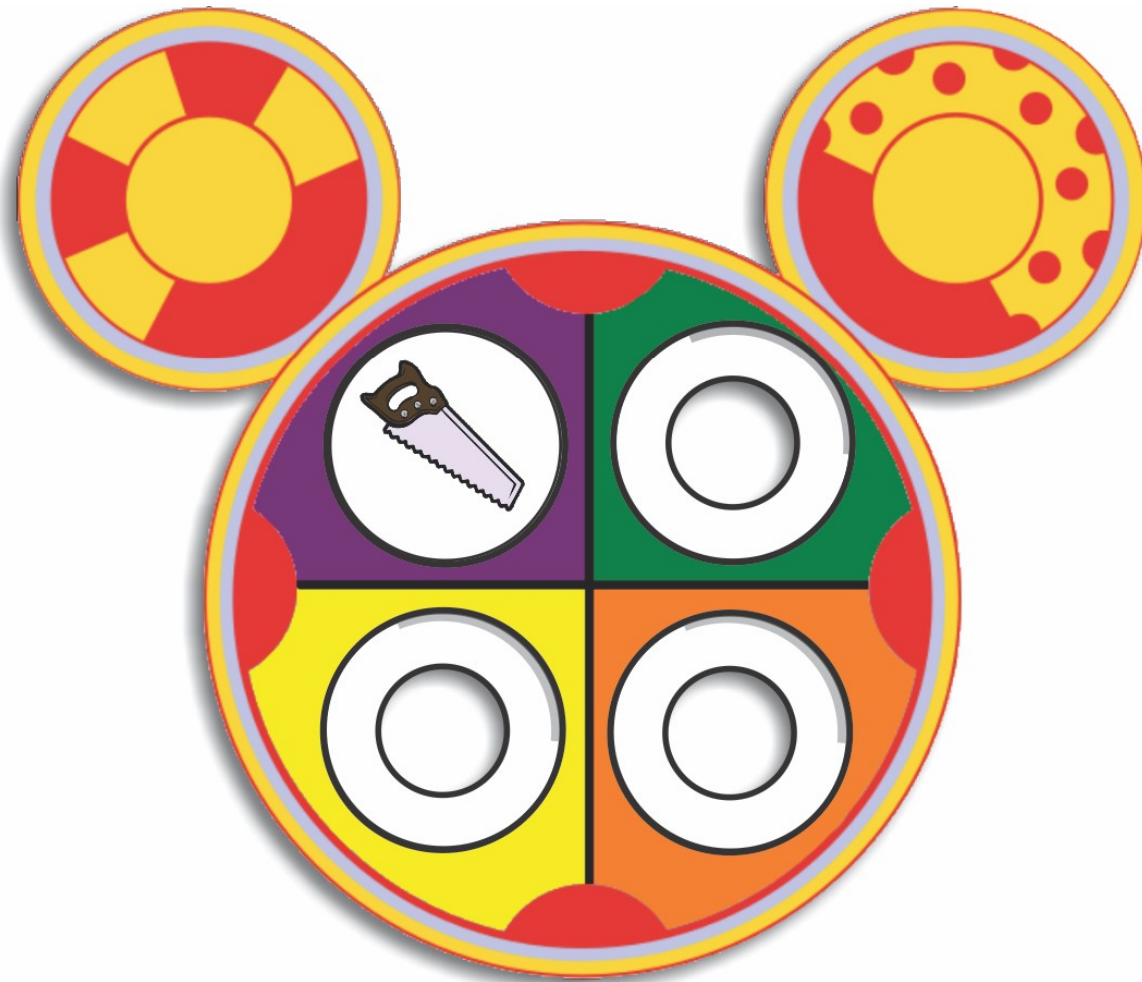

Spin your playing piece...

...and move ONE square in the direction the arrow is pointing.

Each player, in turn, spins their playing piece and moves in the direction of the spinner arrow. When a player lands on a square with a tool on it, the player picks up the tool disc and inserts it into one of the circle cut outs on their Toodles tool collecting board.

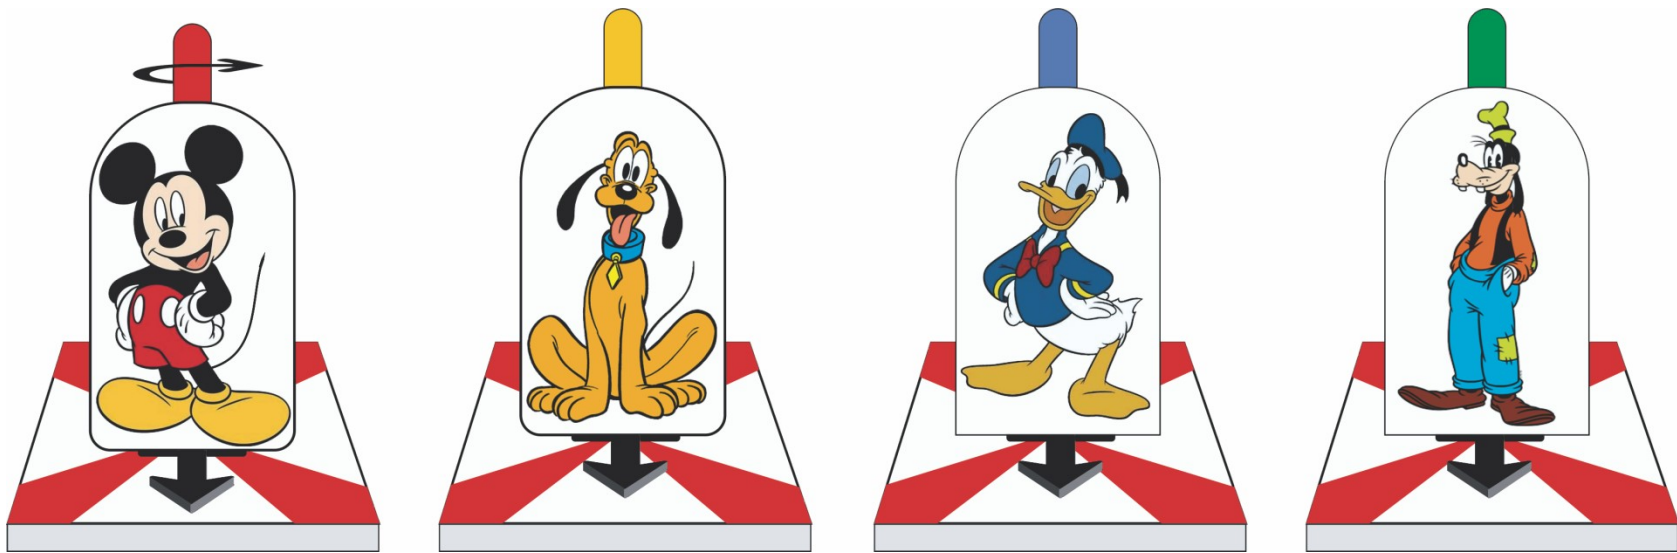

Play continues until one player has collected 3 tools
AND a mystery tool (?) question mark.

That player wins the game!

The game can be made using an alternate design for the spinner/playing pieces other than the 3-D modeled pieces. The pieces could be made flat with decals applied to both sides.

The game could be played with a different cast of characters. For example, the characters from Gabby's Dollhouse could be gathering presents for Gabby's birthday party.
