

How to Play

SwitchTM

The make-a-word game

Switch is a 2 to 4 player word game. Each player is given a card rack. The cards are shuffled and 7 are given to each player. The cards are slid into the rack in the order they were dealt.

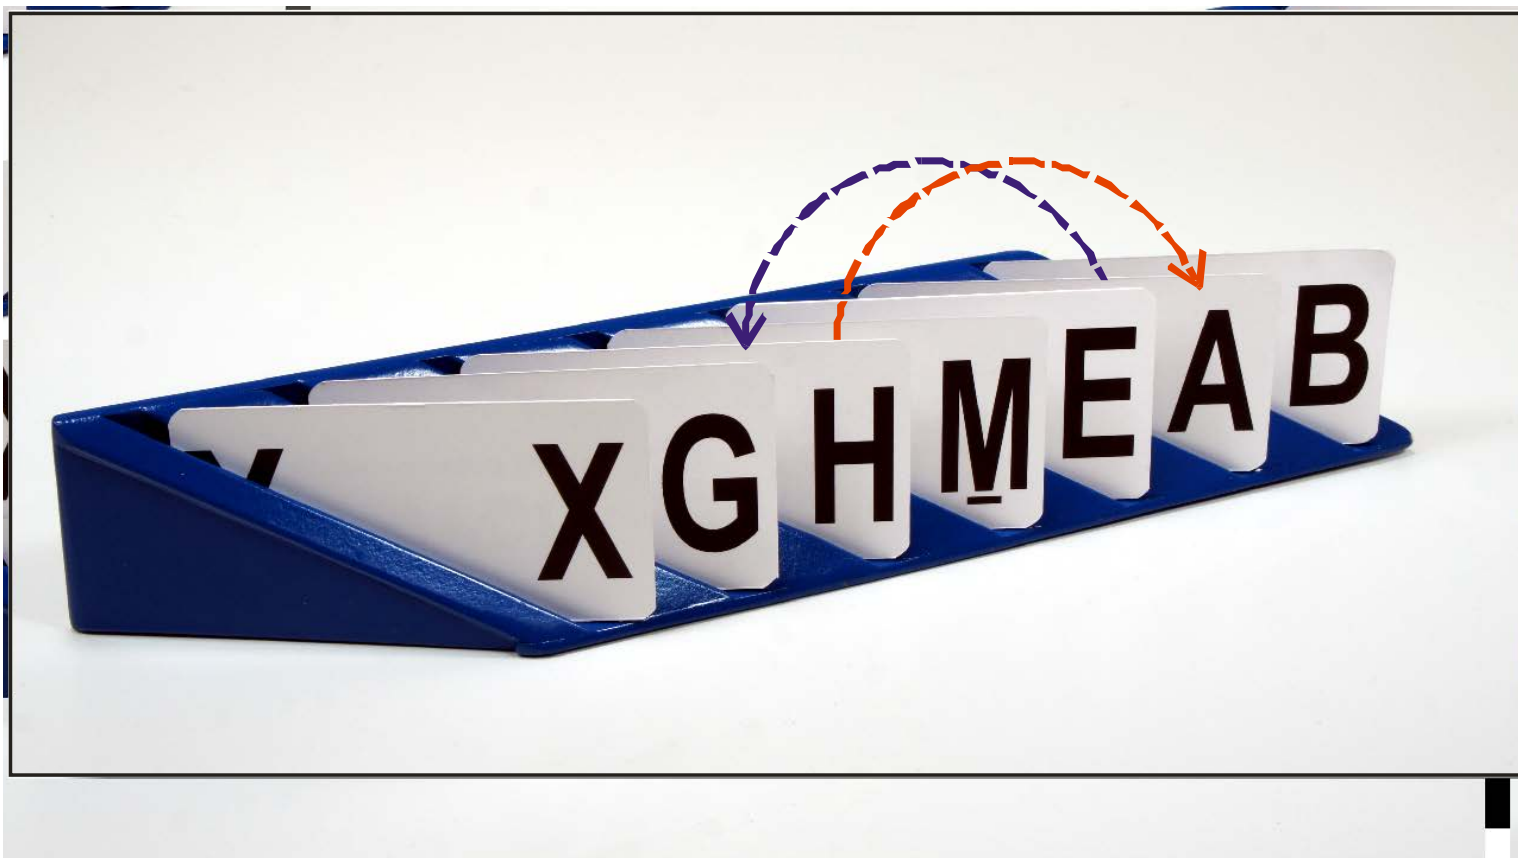

The object of the game is to form words using the letters in the rack. The words can be between 2 and 7 letters long. The letters must be adjacent to each other when forming a word.

On your turn, either draw a new letter card and replace one of the cards in your rack, or switch the position of two letter cards.

Switch the "A" and the "H"

To form the word, "game"

The longer your word, the higher your score. A 5 letter word is worth 25 points, a 6 letter word is worth 36 points, and if you play a 7 letter word, you instantly win the game.

The word, "game" is worth 16 points

Once a word has been played, replacement cards are drawn and put into the rack in the order in which they are drawn.

Play continues with players forming and playing their words until one player scores at least 100 points. That player is the winner!
