

Time Span

Do you remember when?

Time Span

Do you remember when?

To start the game, give each player a time clock. This is used to choose the year of the event. You first change the decade by using the dial and then set the year in that decade by moving the arrow.

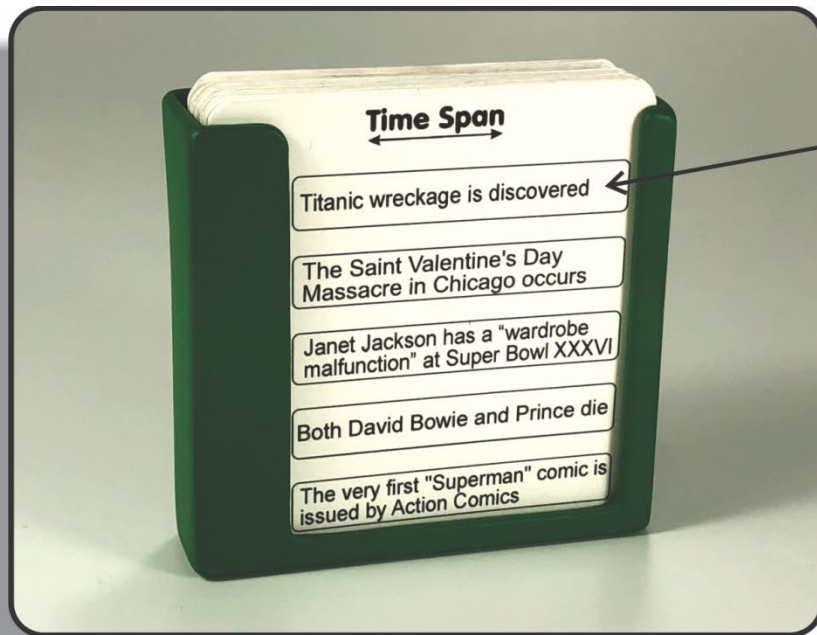

1955

Time Span

Do you remember when?

Take the card-holder, with the years concealed, and read the first question aloud to the players.

Titanic wreckage is discovered

Time Span

← Do you remember when? →

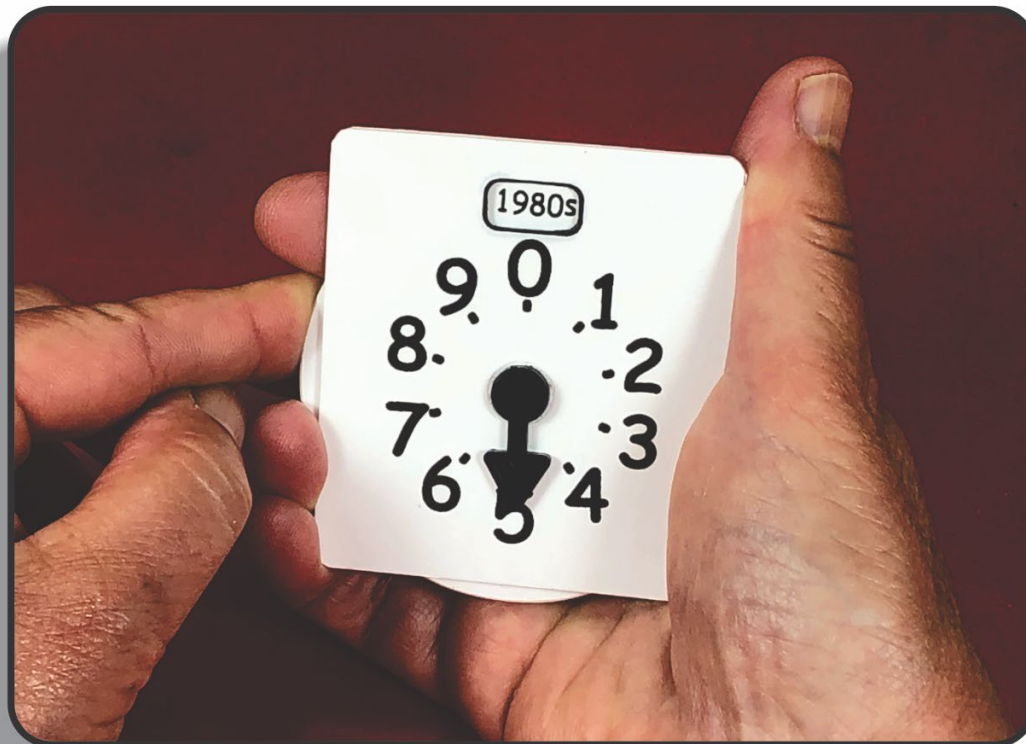

What year do you think the wreckage was discovered? [Not the year it sank.]

Secretly set the decade and year on your time clock. You set it to 1985. Good guess!

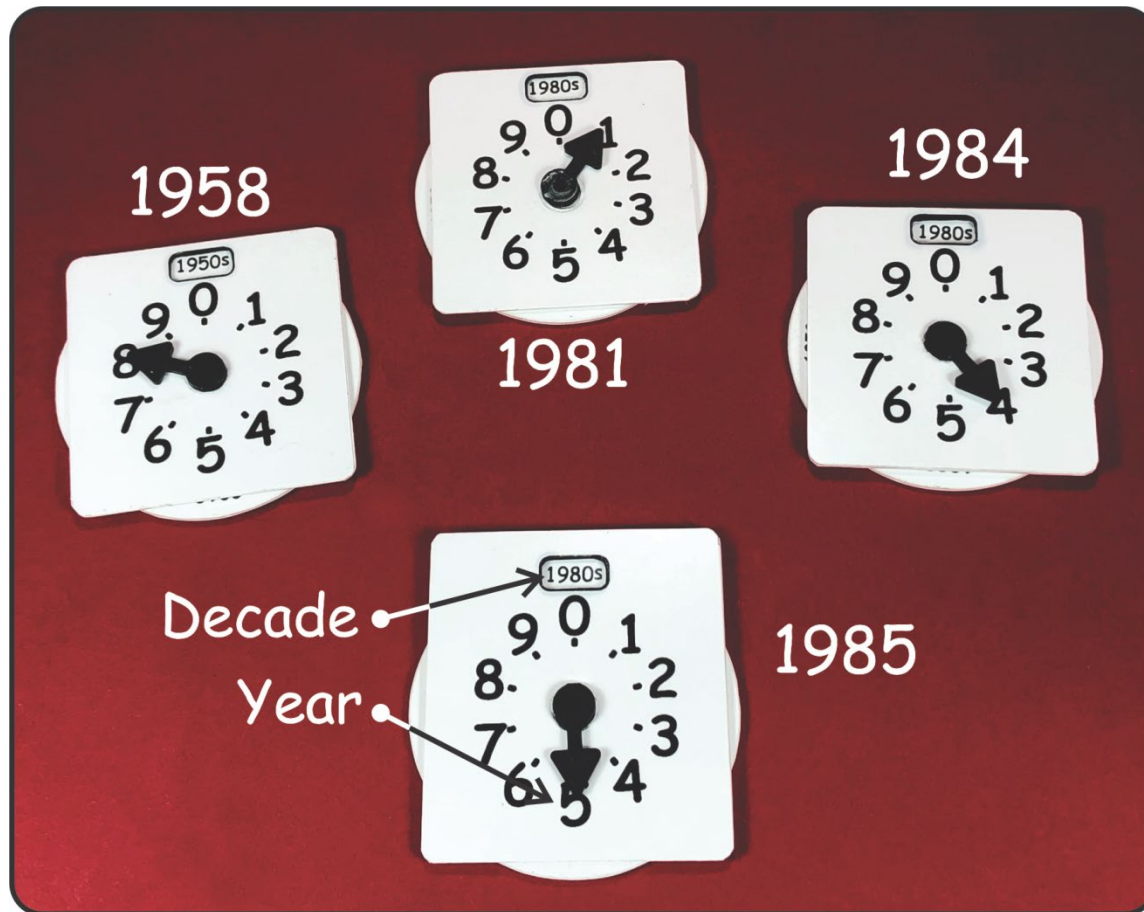

Your guess is 1985

Time Span

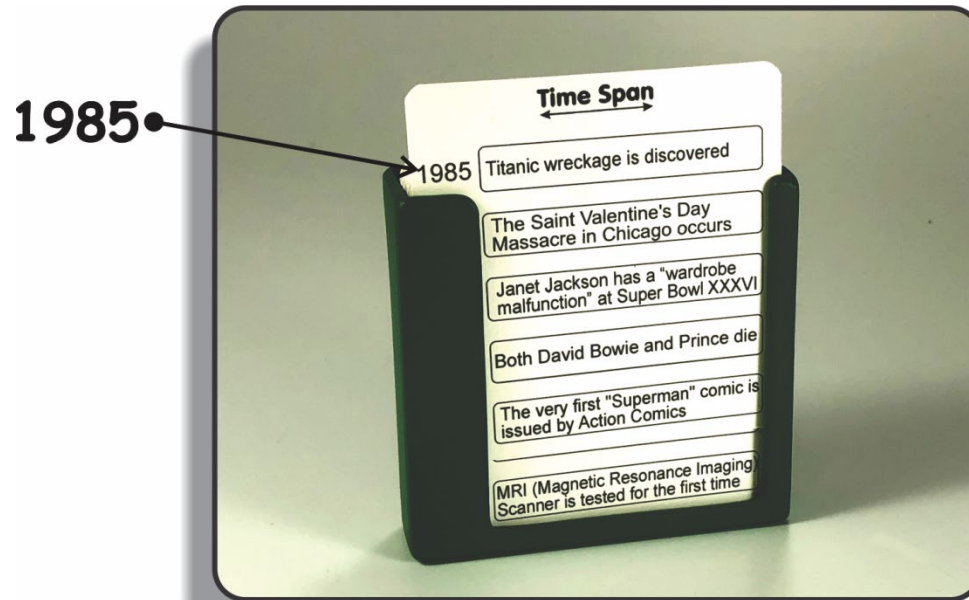

Do you remember when?

Once the other players have set their time clocks, their guesses are revealed.

Pull the card out of the card holder just enough to reveal the answer: "1985".

Time Span

Do you remember when?

You nailed it! You get 3 chips from the pile. The other players get: 1 chip for the right decade, 2 chips for being off by one year, and no chips to the 4th player for an incorrect guess.

Wrong decade
and year
No chips

Right decade
1 chip

Off by 1 year
2 chips

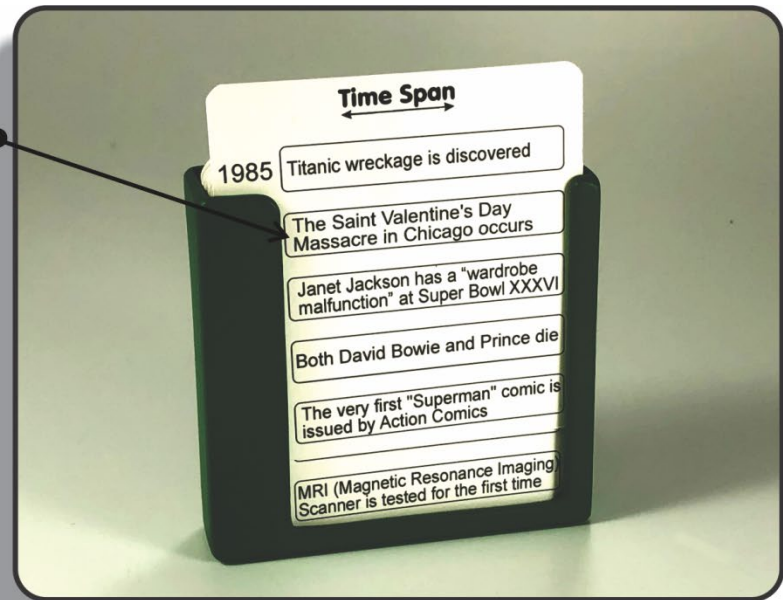

Right year!
3 chips

Time Span

Do you remember when?

The next question is read aloud to the group and the players' guesses are secretly set on their time clocks.

The Saint Valentine's Day Massacre in Chicago occurs.

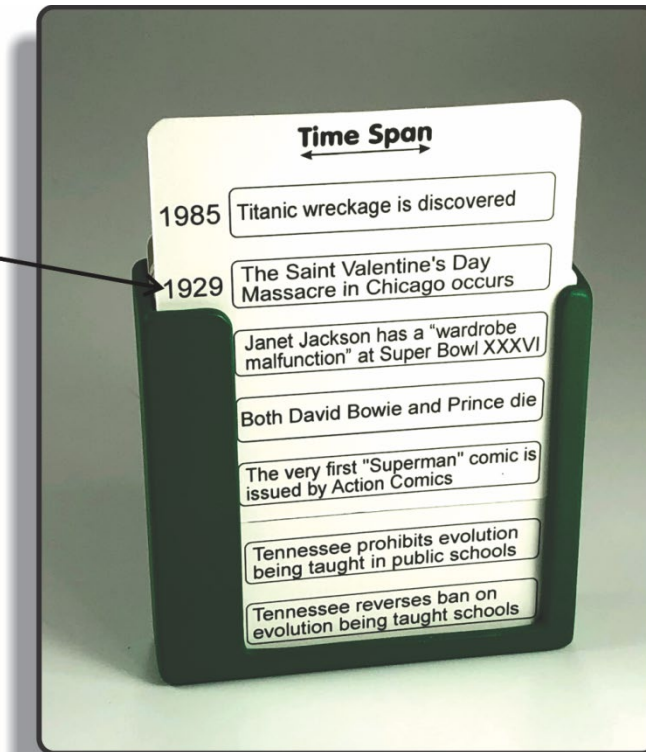

Time Span

Do you remember when?

After all the players have made their guesses, the answer is revealed and the chips are given out.

1929•

Time Span

Do you remember when?

The game continues until 2 cards (10 questions) have been used. The player with the most chips wins the game!

Here are a few samples of other cards.
