*Word Search* is a game played by two teams of two players each team.

To start the game, choose one of the double sided Word Search grids and slide it into the plastic sleeve. Place it on the table.

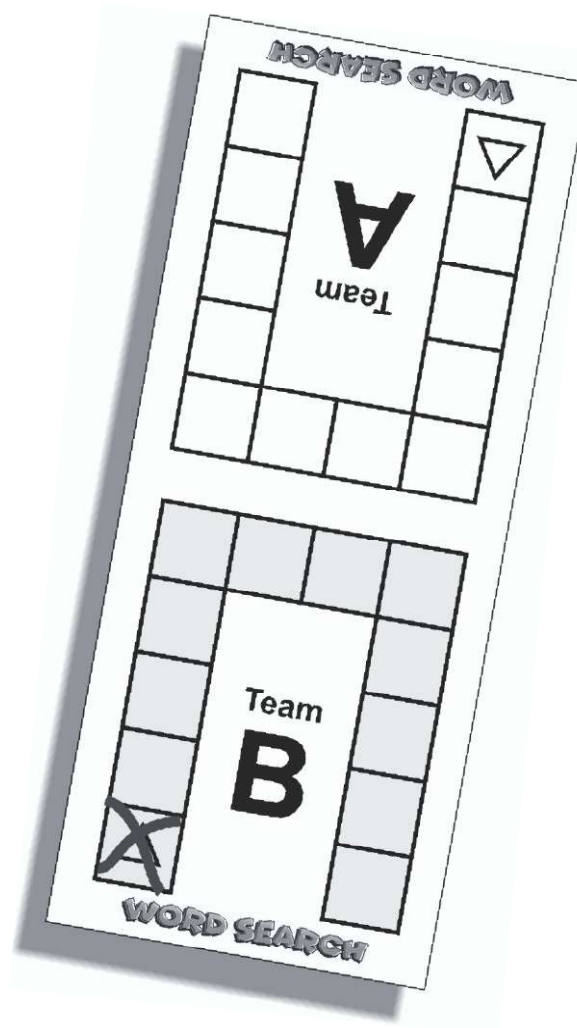

Find the word list that matches the subject on the Word Search grid and slide it into the paper sleeve. NOTE: The word list is in both French and English. Choose the language you will use before the start of play.

The word list is pulled out of the sleeve to reveal the first word. One person from each team starts to scan the Word Search grid for the first hidden word. The words can run from left to right or right to left, horizontally, vertically, or diagonally.

The first person to find the word, scores a point for their team, which is entered on the score sheet by marking the first square with an "X".

The small plastic ring is placed on the first letter of the word on the Word Search grid. Each player places a playing piece in the corner circle of the grid nearest them.

The ring is placed on the first letter "R" in "RULER"

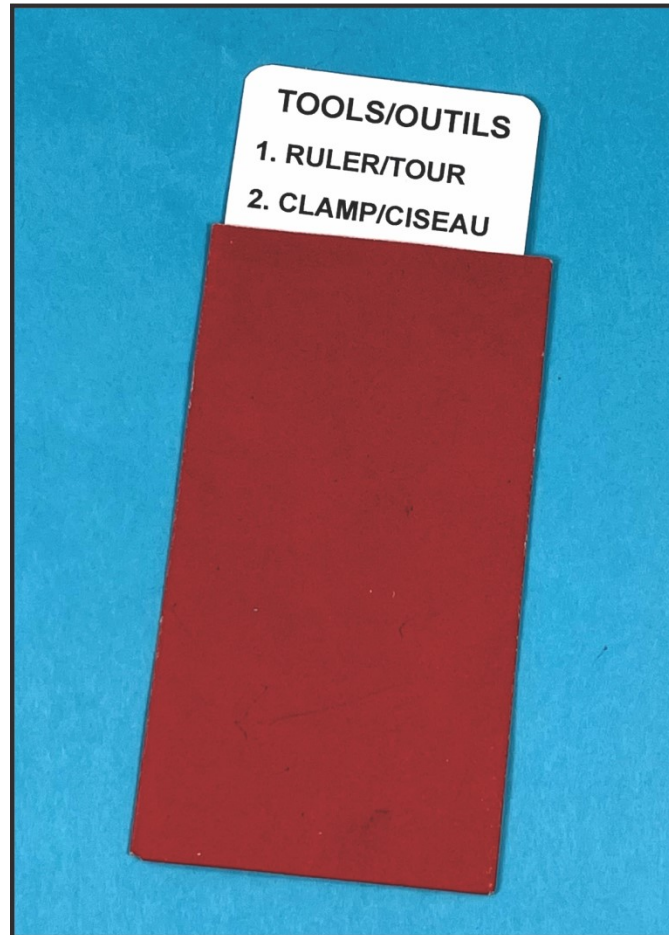

The team that found the word starts by rolling the die and advancing toward the ring, moving one circle at a time horizontally and vertically not diagonally.

The first player to reach to ring scores a point for their team. The ring is removed and the word is circled on the Word Search grid using the erasable pen.

The next word is revealed by pulling the word list out of the sleeve. The two members from opposite teams, who did not go before, start searching for the new hidden word.

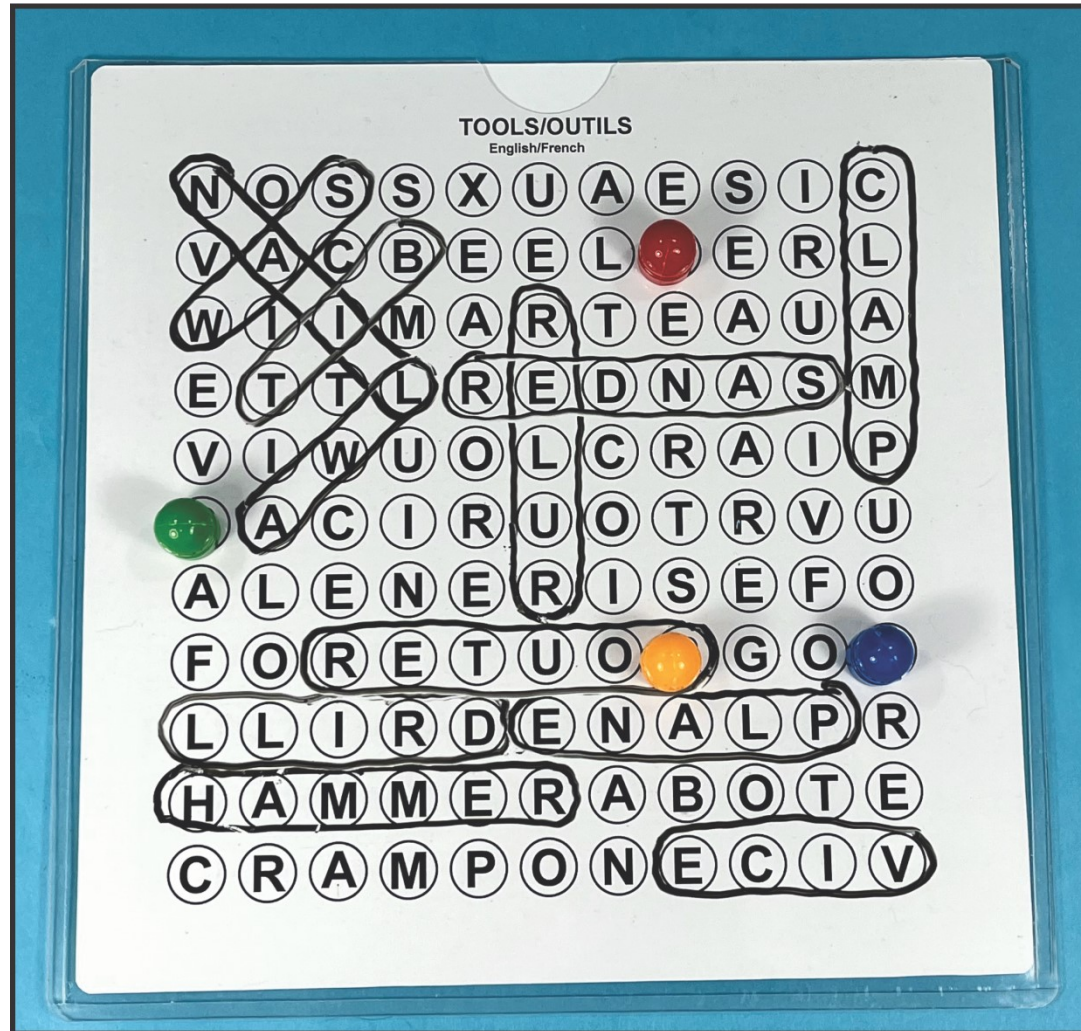

When the word has been found and the point given, the ring is placed on the first letter of the word. The players take turns rolling the die and moving toward the ring. Any circled words, can be used as a slide to move more rapidly across the grid, even diagonally within the slide.

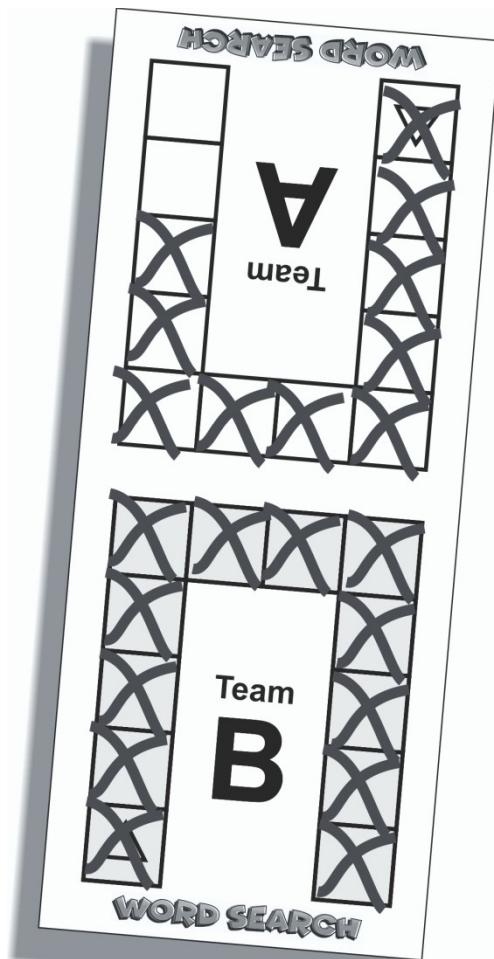

The circled word can be used as a slide to advance the playing piece.

Play continues with each new word being revealed.  
The players race to first find the hidden word,  
and then to be the first to reach the word.

The team that has reached the final square on the score sheet first are the winners!

**WINNER!**

**Word Search can be made in any language.**

## **German**

### **WEIN**

1. WIEN
2. MELANGE
3. WALZER
4. BELVEDERE
5. HABSBURGS
6. GULASCH
7. PRATER
8. SCHNITZEL
9. DONAU
10. SACHERTORTE
11. MOZART
12. FIAKER

### **BAUERNHOF**

1. BAUER
2. TRAKTOR
3. KUH
4. GANS
5. KALB
6. WEIDE
7. HAHN
8. SCHWEIN
9. SCHEUNE
10. ERNTE
11. OBSTGARTEN
12. MAIS

## **Spanish**

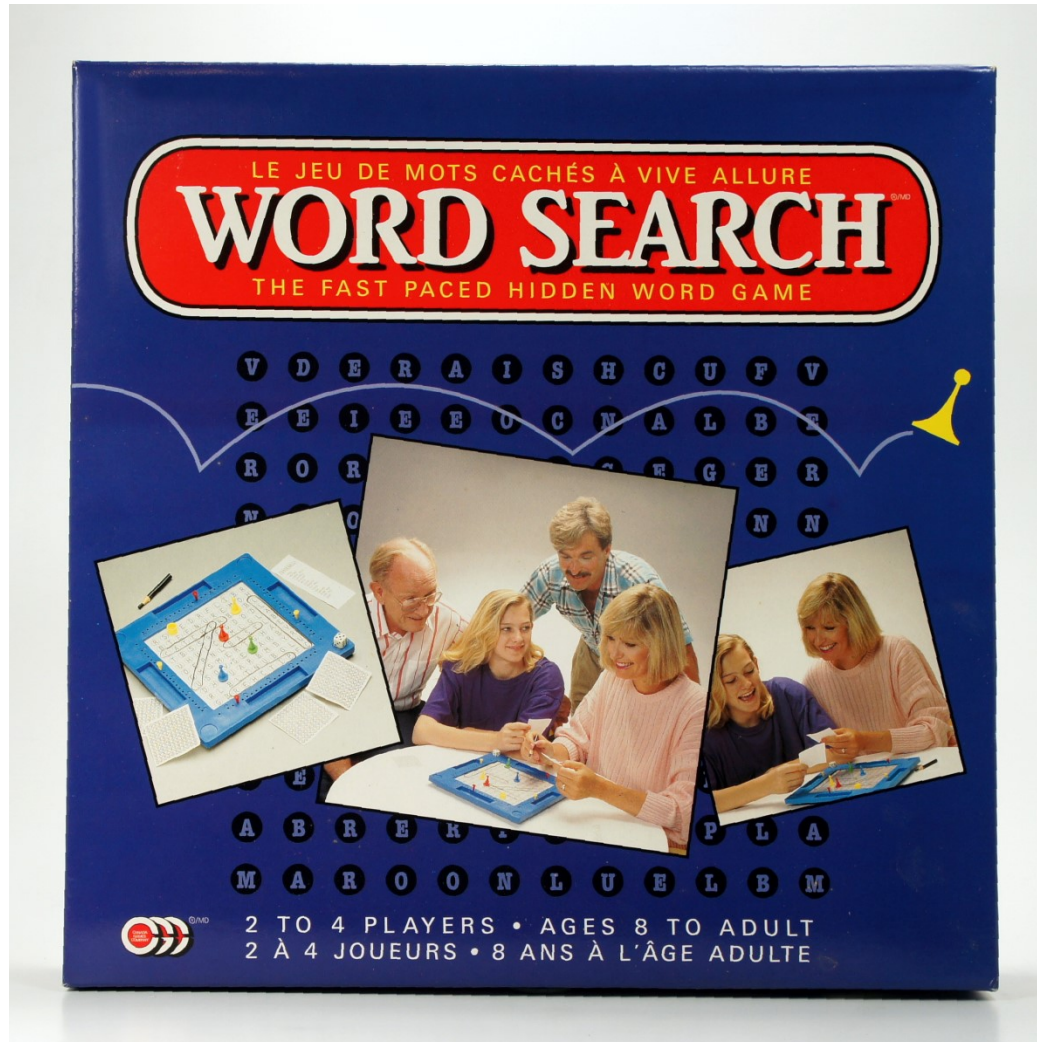

### **GRANJA**

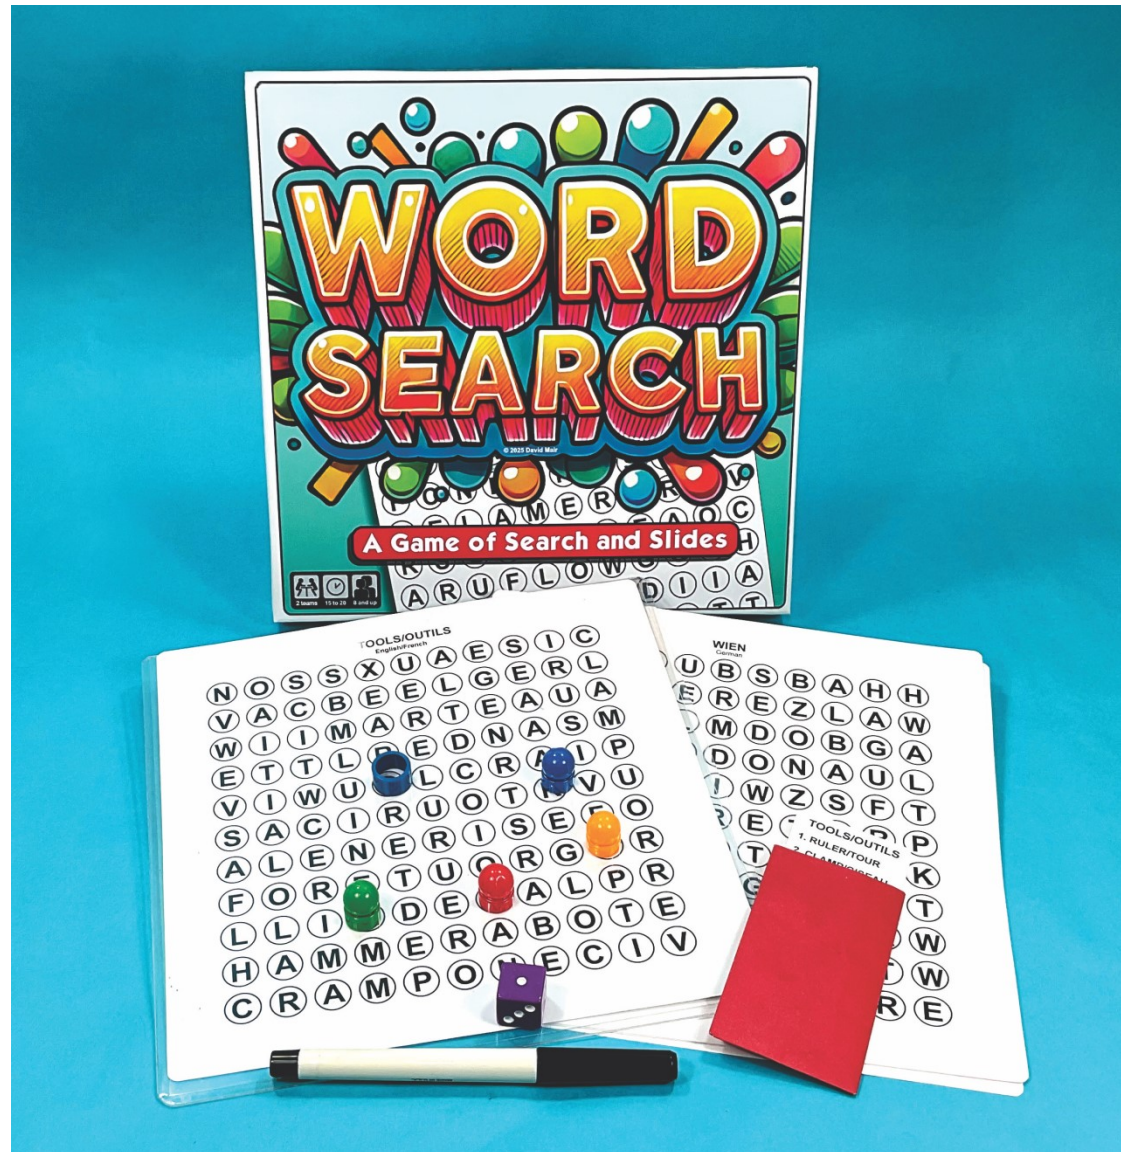

1. GRANJA
2. HUERTO
3. TRACTOR
4. COSECHA
5. PAJARERA
6. GALLINA
7. CERDO
8. ESTABLO
9. VACA
10. SIEMBRA
11. CAMPO
12. CABALLO

### **ROPA**

1. PONCHO
2. HUER
3. CAMISETA
4. ZAPATOS
5. ABRIGO
6. GORRA
7. BOLSO
8. CALCETINES
9. MOCHILA
10. RELOJ
11. TACONES
12. JEANS

Word Search was first produced by Canada Games in 1989. Their version included a plastic frame that allowed you to keep score with pegs. Each grid had both English and French words hidden.
